To whom it may concern

RE: INDUSTRIAL ATTACHMENT – GITHINJI ISAAC HAMISI

The above named student, registration number F17/2004/2022 is a fourth year student pursuing a five-year Bachelor of Science degree programme in the Department of Electrical and Electronic Engineering, University of Nairobi.

As part of the integral learning and fulfilment of degree program, our students are required to engage in practical attachment in service-oriented institutions/organizations prior to their final year of study in order to boost the theory learnt in class.

He is expected to proceed on attachment for a period of three months.

I highly recommend him for an opportunity for industrial attachment.

DR. ABRAHAM M. NYETE
CHAIRMAN,
DEPT. OF ELECTRICAL & INFORMATION ENGINEERING
